The MetaWorld

An interactive, emersive and fun 5G Multiverse

experience

Bertrand Weber, Christos Kolias

Cool Demo Contest

Concept

Most of today's metaverse stories evolve over plain AR/VR/MR/XR type of experiences.

We would like to take it to the next level.

Need to make metaverse more interactive: continuity between the cyber/virtual and the physical world/space and also between different virtual worlds/metaverse environments.
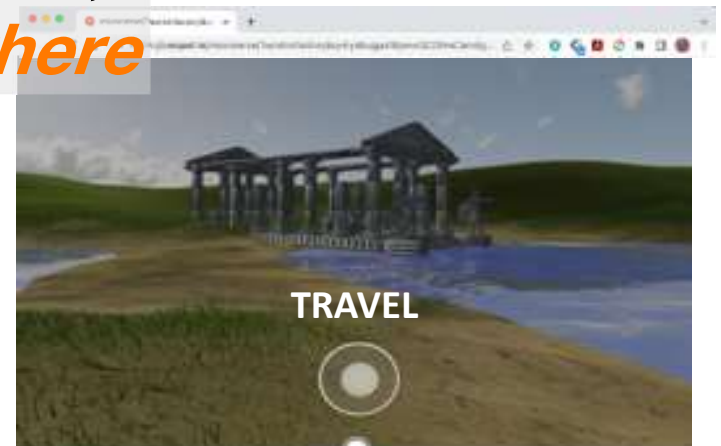

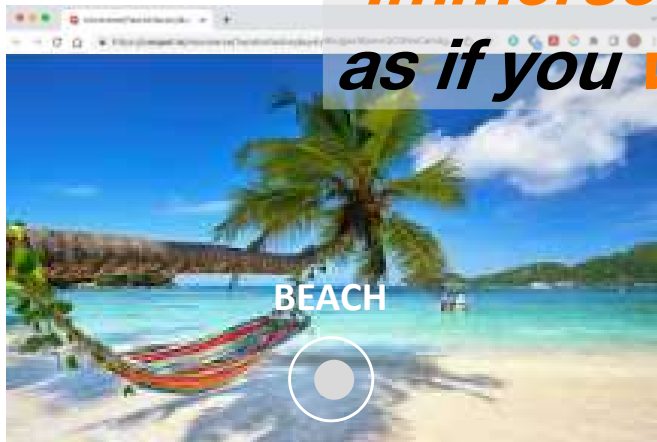

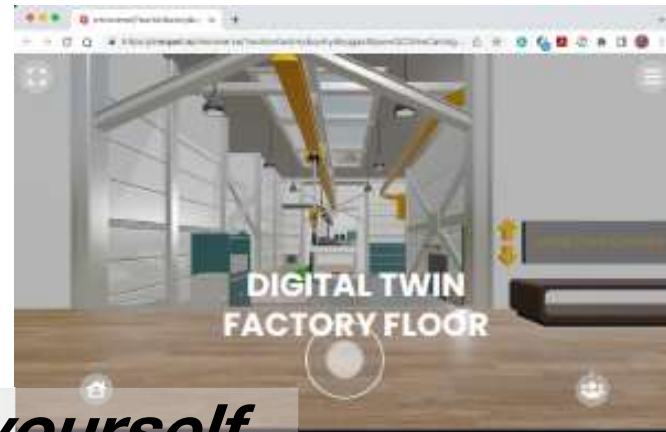

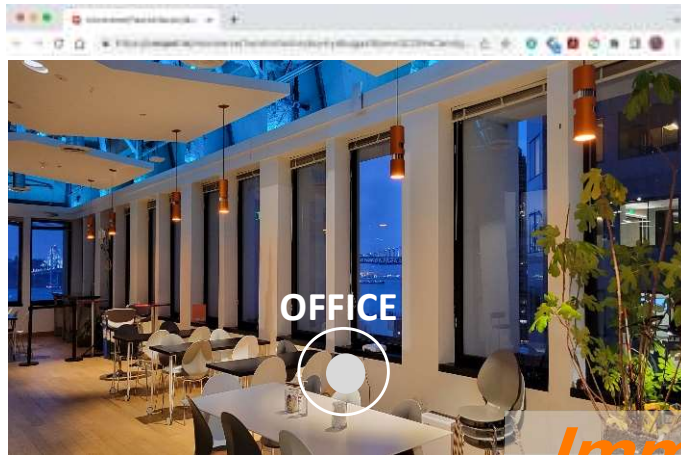

Demo Use Case

Ability to traverse between and become emersed across disparate multiverse environments like work, home, entertainment, gaming, travel and even public spaces (shopping, sport/music events, exhibitions) in a seamless, instantaneous, continuum fashion to deliver a more holistic experience.

Proposal to work with Croquet (and 3rd parties) to showcase moving across virtual worlds and interacting with other actors/assets, providing a perfectly synchronized point of view, regardless of the underlying infrastructure (4G, 5G, WiFi).
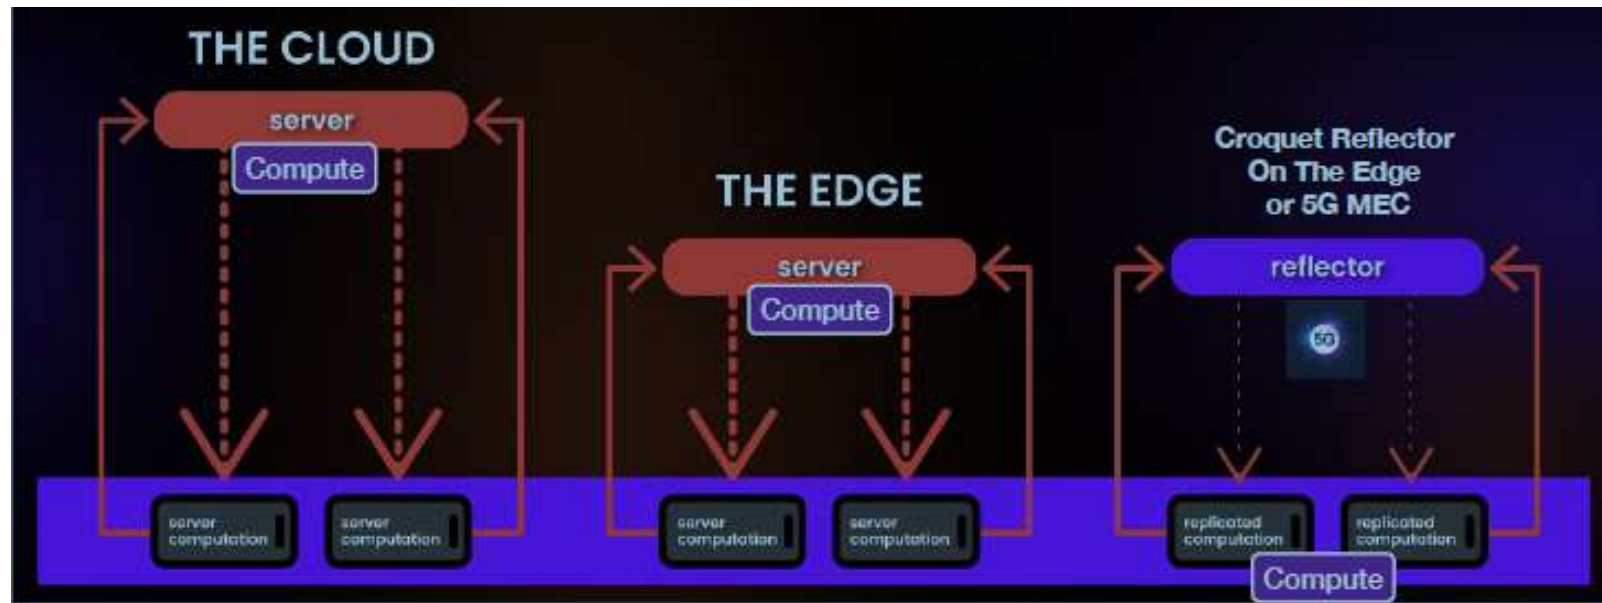

Example

## Build a truly "emersive" and immersive multiuser and interactive experience

Immerse yourself, as if you were there

Technology

The native platform could be deployed on-site, at the edge or on the cloud

Digital Wallet for the Metaverse

A repository of Metaverse

- personas/avatars/holograms

- currencies, cryptocurrencies/tokens, NFTs

- any other digital data & identifiers (ie. IDs, Access Keys, Tickets, Invitations, Social Media profiles)

For instance, different cryptocurrencies can be used for different Metaverse spaces

Digital Wallet Applications METAMASK

Business impact

Value to Orange and Orange's customers

Showcase the value of Orange's high-speed 5G services to customers and businesses (e.g., Private 5G, mmWave).

Extend the Metaverse experience for Orange Stores.

Orange, the first operator with a store in the metaverse

Samuel Korff   · September 13, 2022

What's new?

The innovation is about integrating metaverse applications/services to provide an interactive and top-quality user experience.

Integration with a "**Digital Wallet**".

Thanks
